MINERAL PAINT

We've got you covered.

Our unique formula offers you exceptional opacity, durability & adhesion. The self priming, self levelling & self sealing properties of our paint will give your piece a tough, long lasting & perfect finish for many years to come. Our paint can be used both internally & externally. It will not hurt to put in a little prep before you paint. All the work you put in now will give you the best possible end results.

For best results prep first and leave our paint to do the rest.

Preparation Guide

Preparing your furniture is as easy as A, B, C

A Check your piece is free from oil, dirt & grease

B Decide on your surface and follow prep step

C Apply Annabell Duke Mineral Paint

Melamine, laminated, glass, metal or plastic surfaces	Our unique formula allows you to paint without a high grip primer	Scuff sand with 240 grit sandpaper and remove dust
Varnished, lacquered or high gloss surfaces	Scuff sand with 240 grit sandpaper and remove dust	Apply Annabell Duke Mineral Paint
Old/loose or flaky paint	Remove existing layers with our Eco-strip paint & varnish remover	Scuff sand with 240 grit sandpaper and remove dust
Bleed-through, tannin stains & knots	Apply a coat of our ultimate stain block primer	Apply Annabell Duke Mineral Paint
Previously waxed or oiled surfaces	Wipe off with our wax removing solution	Scuff sand with 240 grit sandpaper and remove dust

Always follow safety guidelines and wear appropriate PPE. Always prep & paint in a well ventilated area.
